

Service Group	Service	Explanation of Service Provided	Cost
<b>Administrative</b>	Administrative Fee	Flat fee for general infrastructure oversight, consultation, operations, and coordination of services.  <b>NOTE:</b> Paid only at the start of a project	\$1,700
	Amendment Fee	Flat fee assessed if more than 2 study/budget changes are requested. Minor changes will be assessed a \$200 fee and major changes will be assessed a \$500 fee.	\$200-\$500
<b>OneFlorida Data Trust Support</b>	i2b2 Query	Self-service access to i2b2 to identify availability of data to meet study criteria.	Self Service (No Charge)
	Data Analyst Support	Data queries that require minimal programming time and data set delivery.  Honest broker data analysts are able to retrieve data related to patient demographics, clinical encounter details, diagnoses, procedures, lab results, medications, patient pain scores, adult health literacy assessments, comorbidities, nursing assessments, genotyping data, bio-specimen availability and patient consent for research contact. Researchers require IRB approval for each data element to be retrieved.	\$121/hr
	Research Informatics and Complex Data Query Consults	OneFlorida team of bioinformatics faculty and staff assist researchers in conducting cohort discovery via i2b2, and in defining patient selection criteria and required data elements. The team can help connect investigators to formulate and expand research ideas to best leverage the data trust resources.	\$155/hr
<b>Software</b>	Technical consultation and/or programming survey for the OneFlorida point of care tool (ResearchACTS)	Coordinator time for technical assistance and/or to assist with or programming project surveys.	\$47/hr  *Demo of tool is at no charge
<b>Site Visits</b>		Introductory site visits are required for all participating practices when launching a new study. The clinical research facilitator and a member of the study team (preferably the PI) will attend.	\$47/hr + Travel*  Some examples of travel include, but are not limited to: <ul style="list-style-type: none"> <li>• <b>Miami:</b> \$398 (airfare)</li> <li>• <b>Orlando:</b> \$178</li> <li>• <b>Tallahassee:</b> \$153</li> <li>• <b>In town travel<sup>[1]</sup>:</b> \$.445 per mile (or the current approved reimbursement rate)</li> </ul> *Travel is an estimate based on 1 day car rental and no hotel stay.
		Fidelity monitoring visits can be conducted periodically throughout data collection. The charge includes travel costs and staff time.	
<b>Implementation and Facilitation</b>	Practice Facilitators	Liaison between the investigator and the practice. PF assist practices in research and quality improvement activities. Includes data collection, feedback, and practice enhancement methods to facilitate system-level changes.	<b>Miami Area:</b> \$60/hr  <b>Gainesville/Orlando:</b> \$42/hr  <b>Tallahassee Area:</b> \$39/hr
	Study Coordination	Study materials development, staff training, and implementation.	\$47/hr
	IRB Coordination	IRB protocol preparation and submission. Including revisions and continuing review.	\$58/hr
	Citizen Scientists (Patient Stakeholder Involvement)	Will provide lay perspective into research design (grant review, acceptability and feasibility assessments, stakeholder engagement strategies, and innovative dissemination plans).	\$25/hr
<b>Maintenance of Certification (MOC)</b>	MOC Submission of OneFlorida Approved Studies	Application and approval of MOC credits; charge per application.	\$2,352  *Based on a 6 week project (42hrs)
	MOC Submission of Provider/ Investigator Developed Studies	Application and approval of MOC credits; charge per application.	\$3,080  *Based on a 6 week project (55hrs)
	Close out Procedures	Tracking completion of training and quiz results.	\$25/user

[1] If the project requires travel to locations more than 25 miles away from the site coordinator’s office, additional charges will apply.
